CONSENT TO TELEMEDICINE

By signing this document, you have agreed to receive care using telemedicine. Telemedicine enables health care providers at a different location than yourself to provide safe, effective, and convenient care using technology. There are risks associated with the use of telemedicine, including equipment failure and information security issues. You also understand that we cannot physically examine you.

We at Shenandoah Oncology often prefer face-to-face visits with our patients, however, sometimes the use of telemedicine is safer and more convenient; for example, in the event of an illness, COVID-19, inclement weather, etc.

By signing this document, you agree that you have access to a smart device with video and audio capabilities (such as a tablet, desktop computer, or smartphone) for the telemedicine visit.

Our providers are licensed in Virginia, so by signing this you are agreeing to accurately report your location for the telemedicine visit, which must be in Virginia.

By signing this you endorse understanding the potential risks of telehealth to include, but not limited to, distortion of images resulting from electronic transmission issues, delays in evaluations/treatments due technical difficulties or interruptions, unauthorized access to my information, or loss of information due to technical failures. I will not hold Shenandoah Oncology accountable for such issues or sequelae.

I also endorse understanding that my providers rely on the information provided by me in our telemedicine visit and that I must provide updated/accurate information about my current and past medical history.

If you are determined to be eligible for a telehealth visit, you will be provided information on how to log on to the platform. The use of this platform helps to protect your health information.
