

Welcome to Shenandoah Oncology and thank you for choosing us as your Oncology and Hematology provider. Our primary goal is to provide quality medical care which is easily accessible and responsive in your time of need. Whether you are seeing us for Oncology (cancer) or benign Hematology (non-cancer blood) concerns, our staff includes a comprehensive interdisciplinary team of medical and administrative professionals who will strive to exceed your expectations. We aim to ensure your experience with us is as comfortable and as stress free as possible.

At Shenandoah Oncology, we take a team approach to healthcare delivery. Each team consists of a board-certified hematologist oncologist, an office-based nurse practitioner, a dedicated inpatient nurse practitioner, a clinical medical assistant, and a dedicated scheduler. Additionally, we have a licensed social worker on staff who can help guide you through your emotional, social, and family concerns. If needed, you will also be assigned a nurse in our treatment room who specializes in the treatment and care of oncology and hematology patients.

Depending on your diagnosis, you will see either the doctor or office-based nurse practitioner at your first visit. Together, they will develop a plan of care for you that will best meet your individual needs. Your team will also assist in coordinating care with other providers, specialists and community resources as needed.

Enclosed you will find an appointment card with your provider's name, visit date and time. Again, thank you for choosing Shenandoah Oncology.

## My Care Plus: Patient Portal Authorization Form

Our Patient Portal, My Care Plus, offers convenient and secure access to your personal health record. You can view your diagnosis, medications, clinical lab results, office visit notes, appointments, and additional personal health care information. You can also download, save, and share your personal health record with your clinical team.

Please note, My Care Plus is a separate application from Valley Health's MyChart. Any services you have completed at Valley Heath will not be visible in our portal.

If you choose not to sign up for our portal, you will not be able to access it. If you choose to submit this form, you understand you are consenting for us to email you a unique link that you will use to create a password to access the Portal. If you are receiving access to the Portal; the terms and conditions of the Portal shall apply to this User Electronic mail Authorization Form.

Please write legibly.

## **Erin Stuller, LCSW**

Erin comes to Shenandoah Oncology, PC with more than 15 years of experience in the medical field. She worked as an LPN for ten years prior to pursuing a Master of Social Work degree from West Virginia University with a focus in clinical practice. Since graduation from WVU, Erin has provided psychotherapy services in primary care and behavioral health settings. At Shenandoah Oncology, PC, Erin can offer supportive counseling to patients and family members struggling to cope with a cancer diagnosis and the subsequent challenges that may arise. Benefits of her services include improved emotional and mental well-being, assistance accessing available resources, and opportunity for reflection. Erin is also available for coordination of care and Advanced Care Planning needs.

- Provides psychosocial support including counseling, information, and resources
- Promotes coordination of care
- Assists with financial guidance (in coordination with the patient financial counselors)
- Offers connections to community resources for transportation, housing and/or expenses
- Facilitates Advance Care Planning discussions
- Guides end of life discussions and hospice referral assistance

#### CONSENT TO TELEMEDICINE

By signing this document, you have agreed to receive care using telemedicine. Telemedicine enables health care providers at a different location than yourself to provide safe, effective, and convenient care using technology. There are risks associated with the use of telemedicine, including equipment failure and information security issues. You also understand that we cannot physically examine you.

We at Shenandoah Oncology often prefer face-to-face visits with our patients, however, sometimes the use of telemedicine is safer and more convenient; for example, in the event of an illness, COVID-19, inclement weather, etc.

By signing this document, you agree that you have access to a smart device with video and audio capabilities (such as a tablet, desktop computer, or smartphone) for the telemedicine visit.

Our providers are licensed in Virginia, so by signing this you are agreeing to accurately report your location for the telemedicine visit, which must be in Virginia.

By signing this you endorse understanding the potential risks of telehealth to include, but not limited to, distortion of images resulting from electronic transmission issues, delays in evaluations/treatments due technical difficulties or interruptions, unauthorized access to my information, or loss of information due to technical failures. I will not hold Shenandoah Oncology accountable for such issues or sequelae.

I also endorse understanding that my providers rely on the information provided by me in our telemedicine visit and that I must provide updated/accurate information about my current and past medical history.

If you are determined to be eligible for a telehealth visit, you will be provided information on how to log on to the platform. The use of this platform helps to protect your health information.

Signature of patient or representative	Patient's Date of Birth
Printed name of patient of representative	Today's Date

#### **Telehealth FAQs**

#### What is telehealth?

- Telehealth is away to visit with a healthcare provider using technology.
- You can talk to your provider from any place, including your home.

#### How do I use telehealth?

- You talk to your provider by phone, computer, or tablet.
- You use video so you and your provider can see each other.

#### How does telehealth help me?

- You don't have to go to a clinic to see your provider.
- You won't risk getting sick from other people.

#### Can telehealth be bad for me?

- You and your provider won't be in the same room, so it may feel different.
- You will not have a full physical exam during a telehealth visit.
- Your provider may decide you still need an office visit in person in our office.
- Technical problems may interrupt or stop your visit before you are done (see consent for additional risks).

#### Will my telehealth visit be private?

- If people are close to you, they may hear something you did not want them to know. You should be in a private place, so other people cannot hear you.
- We use telehealth technology that is designed to protect your privacy.
- If you use the Internet for telehealth, use a network that is private and secure.
- There is a very small chance that someone could use technology or hear or see your telehealth visit.

#### How much does a telehealth visit cost?

- What you pay depends on your insurance, but a telehealth visit will not cost any more than an office visit.
- If your provider decides you need an office visit in addition to your telehealth visit, you may have to pay for both visits.
